

Entendendo e Documentando RESTful APIs

Stateless Authentication

Stateless Authentication

— — —

OAuth e JWT

Stateless Authentication

— — —

OAuth

`https://oauth.net/`

Stateless Authentication

— — —

Stateless Authentication

— — —

Quero me cadastrar!
(Login/Senha)

Stateless Authentication

Tome esse token
(**z627asie**) e vá ao
facebook me autorizar!

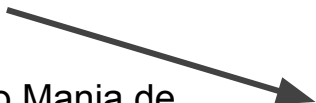

Stateless Authentication

— — —

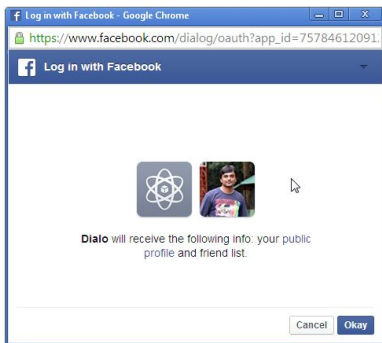

Quero autorizar o Mania de Concurseiro com esse token (**z627asie**)!

Stateless Authentication

— — —

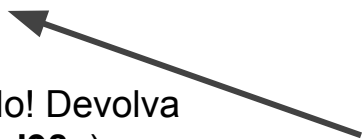

Stateless Authentication

— — —

Ok! Autenticado! Devolva
esse token (**kad98y**) ao
Mania de Concurseiro!

Stateless Authentication

— — —

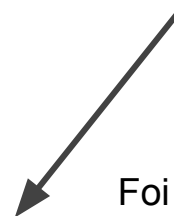

Mania de Concurseiro,
consegui a autorização do

facebook! Ele me passou
esse token (**kad98y**), posso
entrar no site?

Stateless Authentication

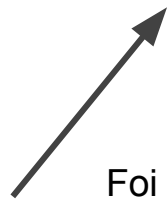

— — —

Foi você quem gerou esse token (**kad98y**)?

Stateless Authentication

— — —

Foi sim! Foi eu quem gerei o token!

Stateless Authentication

— — —

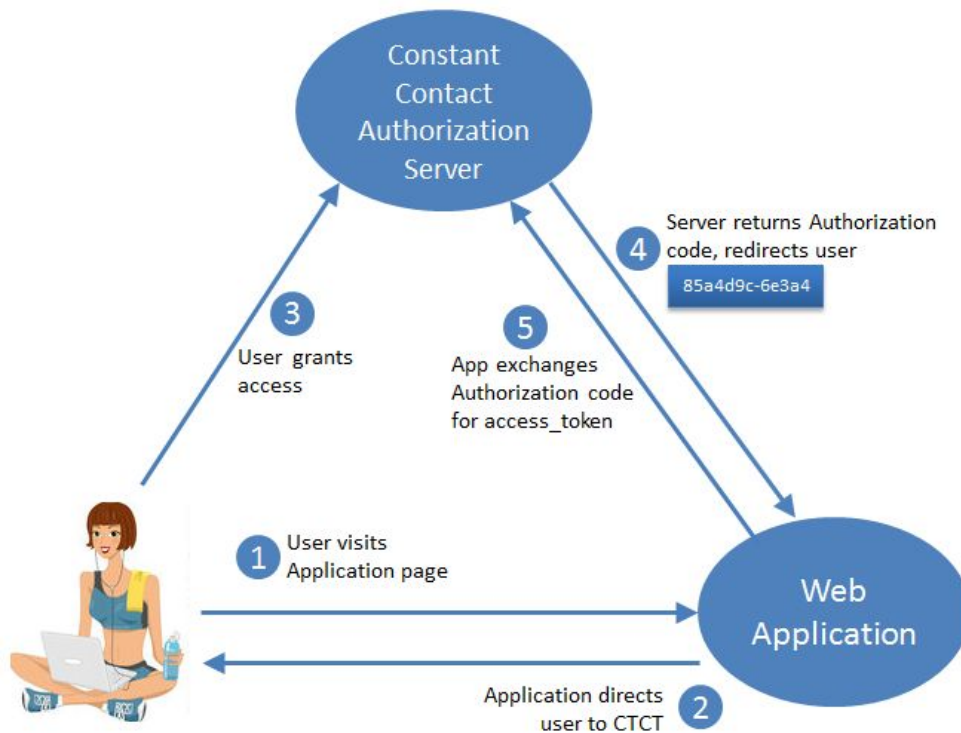

Ok! Você está autorizado a entrar no site!

Stateless Authentication

— — —

Stateless Authentication

— — —

Benefício

Escalável!

Stateless Authentication

É Stateless mesmo?

Stateless Authentication
